

MOBILITY PROJECTS FOR YOUNG PEOPLE - “DISCOVEREU INCLUSION ACTION”

Under the Discover EU Inclusion Action, organisations and informal groups of young people can receive support to carry out projects allowing young people with fewer opportunities to participate in DiscoverEU on equal footing with their peers.

DiscoverEU offers young people who are 18 years' old a chance to have a short-term individual or group experience travelling across Europe by rail or other modes of transport where necessary. The objectives are to:

- give young people the chance to learn about Europe but also to discover Europe's opportunities for their future education and life choices;
- equip young people with knowledge, life skills and competences of value to them;
- encourage connection and intercultural dialogue between the young people;
- foster the young people's sense of belonging to the European Union;
- inspire young people to embrace sustainable travel in particular and environmental conscience in general.

OBJECTIVES OF THE ACTION

DiscoverEU seeks to enhance its inclusion dimension by providing extra support to participants with fewer opportunities to explore Europe.

More specifically, the DiscoverEU Inclusion Action aims to:

- Reach out to young people with fewer opportunities that would not apply on their own initiative;
- Overcome the obstacles that prevent these young people to directly participate in the DiscoverEU general application round and provide the necessary support that they need so that they are able to travel;
- Trigger and enhance the development of competences and skills of young people with fewer opportunities taking part in DiscoverEU.

POLICY CONTEXT

The European Union Youth Strategy 2019-2027 sets out a Framework for European cooperation in the youth field, based on the Commission's Communication of 22 May 2018 on 'Engaging, Connecting and Empowering young people'. The Strategy fosters youth participation in democratic life, supports social and civic engagement and aims to ensure that all young people have the necessary resources to take part in society. The EU Youth Strategy also includes a Youth dialogue process and in that context, 11 European Youth Goals have been developed in 2018. These goals identify cross-sectoral areas that affect young people's lives and point out challenges. The EU Youth Strategy should contribute to realising this vision of young people. Under the core area 'Connect', the EU Youth Strategy is promoting and facilitating connections, relations and exchange of experience between young people as a pivotal asset for the future development of the EU. These connections are best fostered through different forms of mobility, one of which is DiscoverEU.

DESCRIPTION OF THE ACTIVITIES

DiscoverEU Inclusion Action

With the DiscoverEU Inclusion Action, one to five young people with fewer opportunities from the same country gather for a short period to travel through Europe. The learning period comprises planning, preparation, implementation before and during the DiscoverEU travel as well as follow-up after the travel.

The following activities are not eligible for grants under DiscoverEU: academic study trips; exchange activities that aim to make financial profit; exchange activities that can be considered as performance tours, statutory meetings, training courses by adults for young people.

SETTING UP A PROJECT

A project is implemented by one organisation or informal group of young people, which sends one or more (group of) participants on a DiscoverEU travel. The organisation should benefit from its participation in the DiscoverEU Inclusion Action and the project should therefore be in line with the objectives of the organisation and fit its needs. Cooperation with stakeholders in other countries that could offer activities¹¹⁷ or support to the participants, e.g. hosting etc., is possible..

A project consists of four stages: planning, preparation, implementation and follow-up. Participating organisations and young people involved in the activities should take an active role in all those stages enhancing thus their learning experience.

- planning of the travel experience (define the needs, objectives, learning outcomes, type of activity/ies, travel planning, schedule of activities, etc.);
- preparation (practical arrangements of the DiscoverEU travel, set up of agreements with stakeholders, organisation of linguistic/intercultural/learning/cultural/environmental/digital activities, tasks related to the preparation of participants before departure etc.);
- implementation of activities during the DiscoverEU travel;
- follow-up (evaluation of the activities, identification and documentation of the learning outcomes of participants, as well as dissemination and use of the project's outcomes).

A quality DiscoverEU Inclusion Action:

- relies on the active involvement of young people with fewer opportunities and participating organisations, who should take an active role in all the stages of the project, enhancing in this way their learning and development experience;
- involves preferably diverse groups of participants with fewer opportunities and builds on this diversity;
- is based on clearly identified needs of the young participants;
- ensures that the non-formal and informal learning outcomes of the DiscoverEU experience of the participants are properly identified and documented;
- encourages the participants to reflect on European topics and values.

Learning process

Setting the DiscoverEU Inclusion Action in the context of non-formal learning requires that at least a part of the desired learning outcomes is planned in advance, in order to ensure the appropriate opportunities. Participants should contribute to the identification of their needs and the learning that they wish to obtain or develop through their DiscoverEU travel.

Participants should also be involved as much as possible in the design and development of the activity(s) during their travel (setting up the programme, itinerary, activities, booking accommodation, etc.) and think how to prepare to maximise the learning and personal development they would gain during their travel.

After the DiscoverEU travel, participants should be invited to provide a feedback on their DiscoverEU experience, reflect on what they have learnt and how they can make use of the learning outcomes.

Organisations should support the learning process, the identification and documentation of the learning outcomes, in particular by using the Youthpass for DiscoverEU participants.

Inclusion and diversity

The Erasmus+ Programme seeks to promote equal opportunities and access, inclusion and fairness across all its actions. Organisations should design accessible and inclusive project activities, taking into account the views of participants with fewer opportunities and involving them in the decision making process.

DiscoverEU Inclusion Action is particularly suitable for inclusion of young people with fewer opportunities:

- To experience travelling alone as an individual;
- A group mobility offers international mobility experience in the safety of a group;
- Due to the short duration and close accompaniment by an organisation, young people with fewer opportunities get the opportunity to experience travelling in a group or even alone.

DiscoverEU Inclusion Action is also suitable to work on inclusion and diversity to support fight against stereotypes, foster understanding, tolerance and non-discrimination.

Protection and Safety of participants

DiscoverEU Inclusion Action can involve group leader(s), facilitator(s), accompanying person(s) who can monitor and provide support to the participants in order to ensure a qualitative learning process during the DiscoverEU travel. At the same time, they cater for a safe, respectful and non-discriminatory environment and protection of the participants. During the planning and preparation of a DiscoverEU travel under the DiscoverEU Inclusion Action, the issue of protection and safety of the participants should be addressed and all necessary measures to prevent/reduce risks should be foreseen.

Environmental sustainability

DiscoverEU should promote environmentally sustainable and responsible behaviour among participants, raising their awareness about the importance of acting to reduce or compensate for the environmental footprint of mobility activities. The DiscoverEU Inclusion Action should be designed and implemented with environmental consciousness, e.g. by

integrating sustainable practices such as opting for reusable or eco-friendly materials, reducing waste and recycling, opting for sustainable means of transportation.

Digital transformation in DiscoverEU

The Erasmus+ Programme supports all participating organisations in incorporating the use of digital tools and online learning methods to complement physical activities, improve the cooperation between stakeholders, and the quality of the activities.

Erasmus Youth Quality Standards

The implementation of all projects supported under this Action must follow the Erasmus Youth Quality Standards for organising high quality learning mobility activities. The Erasmus Youth Quality Standards cover the basic principles of the Action, as well as concrete implementation practices for project tasks such as selection and preparation of participants, definition, evaluation and recognition of learning outcomes, sharing of project results, etc. The Erasmus Youth Quality Standards are available here: https://ec.europa.eu/programmes/erasmus-plus/resources/documents/erasmus-quality-standards-mobility-projects-youth_en
